Appendix A - MovieBrowser Usability Testing Experiment

Welcome to the MovieBrowser Usability Testing

The objective of the usability testing is to get your feedback and opinion on the current system (MovieBrowser). For this study we are interested in gaining a better understanding of the problems you have when using MovieBrowser for Film Studies purposes.

MovieBrowser is a single system (stand-alone) that can accommodate all three methods of locating events in film for further analysis. Three methods of locating events are (1) browse all by keyframe, (2) browse detected events and (3) manual search. There are 12 films stored in MovieBrowser.

In order to achieve this objective, we provide some task to participant. Please spend 10-15 minutes on exploring the task given and considering what you are thinking in your mind during the system exploration.

There are two parts in the questionnaires: PART A and B. You need to answer all questions in PART A before you start with the TASK. After you have finished with the TASK (exploring MovieBrowser), please answer the questionnaire in PART B. Please read task description provided below.

TASK DESCRIPTION

Imagine that you need to do close textual analysis on some film provided in the system on a chosen topic given in class recently. Choose any film that interests you for the purpose of this study. Try to explore (compare, contrast, search and browse) scene/part(s) by:

- Browse at all keyframes that the film has listed/shown.
- Browse at any scene/part that you like (such as fighting, music or conversation or combinations) in the film
- Play the scene/part in the film.

QUESTION FOR TASK 1

Analyse the techniques used by the director to make the scene more tense between all family members in the fighting dinner scene where Lester (the father) throws away the food plate onto the wall.

[Hint: e.g. Characters smiling to/at each other in the beginning; there are some recognizable changes in dress etc].

QUESTION FOR TASK 2

Analyse the director's use of music to express the characters' emotion more cinematically.

[Hint: e.g. You could contrast these scenes - a scene where Carolyn (the mother) is driving and singing in the car on the way back home and a scene where Lester (the father) and Angela (Jane’s friend) are together in the bath].
